## Summary

Results-driven Senior Frontend and Flutter Developer with 7.4 years of experience architecting and delivering high-performance web and mobile applications. Proven ability to lead frontend teams, manage codebases using Git, Github, Bitbucket, and Gitlab, and integrate AI technologies like TensorFlow. Expertise in React, Angular, TypeScript, HTML, JavaScript, MongoDB, JIRA, and Confluence, consistently enhancing user experience and product quality.

## Experience 7 yrs, 4 mos

### Senior Software Developer

Nov 2024 - Present 1yr, 11mos

Solveall solutions Pvt.Ltd.

Over 8 years of experience in designing, developing, and maintaining complex software applications in agile environments. Proficient in full-stack and frontend development with strong expertise in JavaScript, HTML, Angular, and Flutter for building scalable, high-performance web and mobile applications. Proven ability to lead cross-functional teams, deliver projects on time, and optimize enterprise systems for performance, reliability, and user experience. Adept at implementing best development practices, enhancing system scalability, and driving continuous innovation in software engineering.

- Architected and delivered a high-performance data processing system, increasing data ingestion rates by 50% and enabling real-time analytics.
- Implemented comprehensive unit and integration tests, achieving over 95% code coverage and significantly reducing regressions.
- Designed and optimized algorithms for complex problem-solving, improving processing efficiency by 35% for key user-facing features.
- Reduced technical debt by refactoring legacy codebases, improving maintainability and saving an estimated 8 hours of developer time per week.

Experience 7 yrs, 4 mos

## Senior Software Developer

Sep 2023 - Aug 2024 1yr

ChainTech Network Pvt. Ltd

In my role as a Team Lead at Chaintech Network, I spearheaded the frontend team's efforts in the crypto domain, specializing in version upgrades. I mentored team members to tackle real-world problems and enhance their expertise in the field. By successfully upgrading React versions, we were able to improve performance and user experience, contributing to the company's success.

- Developed and deployed scalable microservices, improving system reliability by 25%.
- Engineered RESTful APIs, supporting over 1 million daily active users.
- Collaborated with cross-functional teams to deliver critical product features on time.
- Optimized database queries, reducing average response time by 30%.
- Mentored junior developers, fostering a culture of code quality and best practices.

## Senior Software Developer

Nov 2021 - Sep 2023 1yr, 11mos

Blockchain Solutions Network

React version upgrade expert Team leadership Frontend Development Team Building

- Architected and implemented scalable microservices, serving over 5 million monthly active users.
- Developed robust APIs, improving data retrieval efficiency by 35%.
- Collaborated with cross-functional teams to launch new product features, resulting in a 20% increase in customer engagement.
- Optimized database performance, reducing query times by an average of 50%.
- Mentored junior developers, fostering a culture of continuous learning and code quality.

## Software Developer

Apr 2019 - Nov 2021 2yrs, 8mos

Angular Minds Pvt Ltd

Pune, India

MERN stack Developer CRM GIT BitBucket Jira

- Developed and launched a new feature that increased user engagement by 25%.
- Collaborated with cross-functional teams to deliver high-quality software solutions.
- Optimized application performance, reducing load times by 15%.
- Implemented unit and integration tests, achieving 90% code coverage.

## Education

### Masters in Computer Application

Jun 2009 - May 2012

University of Pune

- Additional details or coursework

### Bachelor in Computer Application

Jun 2006 - May 2009

University of Pune

- Additional details or coursework

## <> Projects

### IXFI

Date Range

Led a team of 8 developers in upgrading the React version for a cryptocurrency exchange platform, ensuring seamless integration and enhanced performance.

Node.js React WebSockets PostgreSQL Docker AWS

### CRM[Vehicle Showroom]

Date Range

Spearheaded the design and development of a Progressive Web App (PWA) for vehicle sales and purchase management, enhancing showroom operations.

Salesforce Apex Visualforce SOQL JavaScript HTML CSS

### Issue Tracker

Date Range

Developed and deployed a MERN stack-based issue tracker for fundamental project task management, supporting multiple user roles.

JavaScript PostgreSQL Docker Jira Git Node.js

### Background Verification Process

Date Range

: MERN – An insurance company's client background verification method  
Tools and Technologies

### COVID-19 tracker Maharashtra

Date Range

: Made in FLUTTER for training purpose with open api Created this mobile app in lockdown using flutter 2 version.

Flutter Mobile Development

### Case Diary

Date Range

: MEAN - Advocate daily case management tool
